PLEASE NOTE:

- In-house repair requires you to deliver your PC and any cables or software media to our workshop.
- A diagnosis is free up to 15 minutes, a charge may be incurred if more time is needed to open and explore more deeply, i.e. Laptops which need to be disassembled.
- All software to be installed MUST be legitimately owned by you.
- Any Data recovered will not be stored after the job has been done.
- We are not responsible for any data loss caused in the reinstallation of an operating system if you didn't notify us to back it up before we proceeded.
